IT software and services available for students with disabilities

A wide range of software and services are available for students with disabilities.

*Read & Write* and *MindJet Mind Manager 2017* are available on all ISS Supported PCs, and *JAWS Screen Reader* is available in the University Library. To use JAWS, ask at the Library Enquiry Desk.

Supplementary funding is available to students with disabilities through the *Disabled Students’ Allowance*. This funding may be used to provide suitable IT equipment and other support to address any difficulties that you might experience while studying at University. To explore this further, contact the Disabilities Service.

Further information about software and services available to students can be found in the *Related pages* panel.
