How to: Apply for Disabled Students' Allowances (DSAs)

For UK students from England, you need to complete a DSA1 form which can be found on the DSA website along with further details about the process. There are two different forms:

- If you have applied for other student finance from SFE then you can apply for DSA using the 'DSA1 short form';
- If you are only applying for DSA (or if there are any changes to your course, such as the end date) you should complete the 'DSA1 full form'.

If you are a UK student from Wales, Northern Ireland or Scotland or you are a postgraduate student with Research Council funding, the application process is different. For more information, please contact the Disability Service.
